### **ABOUT THE COLLEGE**

A.K.T.Academy was founded in June 1990 by Thiru. A.K.T Mahendran an age old dream of his father late Shri A.K.Thagapillai, a Senator of Annamalai University to provide education for all. It is being materialized in the form of an educational institution under the above name and style. A.K.T. Memorial College of Education was established in the year 2006. The mission of the college is "To provide quality education at an affordable charge to the students from the backward area around Kallakurichi and other places and to prepare them the best suited to the demands of the market".The college has highly qualified faculty to train the pre-service teachers. The College is affiliated to Tamilnadu Teachers Education University and recognized by NCTE. The college conducts academic programmes B.Ed and M.Ed

### **ABOUT THE SEMINAR**

Education makes human learning unlike the learning of any other creature. Learning allows humans to escape the strict determinations of nature. It gives humans the resources to understand themselves and their world, and to transform their conditions of living, for better or for worse. Education in all its aspects is in a moment of transition today. The idea of 'New Learning' contrasts what education has been like in the past, with the changes we experience today, with an imaginative view of the possible features of learning environments in the near future. It is learner-transformative, enabling productive workers, participating citizens and fulfilled persons.

The Anthropocene is a proposed epoch that begins when human activities started to have a significant global impact on Earth's geology and ecosystems. Lots of changes in our education system in the past years took place due to the technological development. This seminar generates a platform for researcher and educationists to discuss, debate, and deliberate about the education standard in the age of technology and environmental protection.

## **SUB –THEMES**

- \* Technology in Curriculum
- \* Technology in Subject Methodology
- \* Technology in Professional Development
